

Acknowledgements

This Trucking Policy document brings together the work done by MoIP&SI and EDB along with its consulting and supporting partners like the World Bank, various Ministries and Provincial Governments, Fleet Operators and Transport Associations.

The Trucking Policy was steered by the Secretary Industries, Production & Special Initiatives Mr. Shahab Khawaja – who is chairing the committee for “Modernization of the Trucking Sector” under the NTCIP. Due acknowledgement to Mr. Abdul Hafeez Chaudhry, Additional Secretary, MoIP&SI for his personal initiative and pursuance. Very special thanks to Mr. Imtiaz Rastgar, Ex-CEO EDB who set the objectives of the exercise and worked tirelessly with the stakeholders to have their perspective.

The policy document has been prepared by the team of EDB’s Policy Development Group lead by Mr. Zahid J. Yaqub, General Manager (Policy) and Mrs. Raazia Shakir, DGM (Policy). Support provided by Mr. Abid Abrar Husain, Consultant, hired through the World Bank and Mr. Amir Durrani, Sr. Infrastructure Specialist, World Bank, is highly commended.

The Policy recommendations have been firmed up after detailed discussions and deliberations with all the stakeholders in this sector. Reaching to a consensus by all reflects the keenness of the stakeholders to reform this sector for a better and sustainable future.

Inputs of the private sector stakeholders including the fleet owners, individuals, service providers, corporate sector, logistic companies, representatives of PIFFA and other Transport Associations during separate meetings and a country level workshop on February 13, 2007 at Islamabad are highly valued without which this comprehensive policy would remain short of initiatives.

Highly encouraging and experienced inputs of the Provincial Transport Authorities and relevant departments who helped in making this comprehensive policy document.
